Wenn wir Schatten euch beleidigt,
denkt nur dies – und wohl verteidigt
sind wir dann. Ihr alle schier
habet nur geschlummert hier
und geschaut in Nachtgesichten
eures eignes Hirnes Dichten.
Wollt ihr diesen Kindertand,
der wie leere Träume schwand,
werte Herrn, nicht gar verschmähn,
sollt ihr bald was Bessres sehn.
Da ich Puck und ehrlich bin,
nehmen wir euren Dank jetzt hin,
wenn wir bösen Schlangenzischen
damit glücklich könn' entwischen.
Sonst will Puck ein Lügner sein!
Nun gut Nacht! - Doch haltet ein:
Klatscht erst Beifall unserm Stück!
Dann bringt Puck euch nichts als Glück.

Ein Sommernachtstraum

ABOUT P239 / PORN*POPS DAYDREAM

A Fantasy Design-Diary.

The book was created together with Joris Buiks from Bruno Gmünder who – after he included me in the STRIPPED anthology book – asked me if I would have enough drawings to put together a monograph.

However most of what's there were bits and pieces, unfinished illustrations, ornaments etc. So what to do with all of that? Not that easy to combine since all of this was created over quite a long period of time. Would be interesting to find what people think which illustration started it all – back in 1999.

I started to combine, put together, recreate and create, discard. Especially the illustrations I did since 2006 for short stories in "M – Männer Magazine" (formerly "Männer Aktuell") helped me to develop new stuff.

Porn*Pops Daydream turned out a mixture of designs, texts and drawings – like a fantasy diary. It simply describes the dream, dozing off when riding the Frankfurt subway from my boyfriend's flat to mine. You may be able to find out where I lived at the time. A lot of work is done on computer directly. For some people at work think I'm working but yet I'm drawing...

I hope you'll enjoy the read!

A visual experience - graphic, sexy, stylish and unbelievably cool! Jazzy, luscious, colourful and playful - P239's graphic interpretations of gay life really hits the spot. Stick figures were never so sexy, horny and such total sluts! Thanks to P239's unique aesthetic DAYDREAM is a very special comic experience. The artist experiments with a variety of graphic styles and combines them with short erotic texts. It's an exhilarating visual trip that starts anew every time you open the book.
